EXPERIENCE

Freelance Web Designer
October 2025 – Present

Self-Employed

Projects include a portfolio website for a voice actor and an ongoing web project for a non-profit organization.

- Designed and developed custom websites using HTML5, CSS, and Figma from concept through delivery
- Created visual drafts, wireframes, and prototypes to present design direction to clients prior to development
- Maintained consistent client communication to gather feedback, provide progress updates, and resolve issues
- Troubleshot technical challenges through independent research, testing, and iterative problem-solving

Server
December 2023 – Present

Flix Brewhouse | Mansfield, TX

- Delivered attentive guest experiences in a high-volume, fast-paced environment
- Trained and onboarded new employees as Expo, ensuring smooth team transitions
- Collaborated with kitchen and service staff to resolve dietary needs and ensure guest satisfaction

ACADEMIC PROJECTS

Website Card Sort
